Department of Bacteriology
Berkeley 4, California

Dear Josh:

We have just moved and I came across your letter regarding Englesberg. I am sorry that I had mislaid it because I should have written you long ago.

At the present time all of our space is full but we are ordering laboratory benches sufficient for two research people. They will be installed on the ground floor in our prep room, probably by the end of the year. At that time we could provide space for Englesberg if he is interested. I still have not granted all of the Heart fellowships that are available, and he would be free to apply for one.

I hope you have been having a profitable and enjoyable summer.

Best regards,

A handwritten signature in dark ink, appearing to read 'H. Lardy', written in a cursive style.

Henry A. Lardy
